Despite bulk mail filtration, anti-spam laws, and a growing supply of applications to reduce the amount of junk in your inbox... email marketing is STILL a powerful method for promoting just about anything.

But... how can you get your message into as many inboxes as possible (for free) without owning a huge list or running the risk of being accused of spamming?

One way, of course, would be promotion through safelists. A safelist is simply a database of people who agree to *receive your email* in exchange for being able to *send you email*. The major drawback to safelist advertising is the amount of mail you receive.

The first time I attempted safelist marketing I was overwhelmed. My mailbox was stuffed. With the slow dialup connection I had at that time, it took about 30-45 minutes just to download the mail each day. It was crazy... and I deleted my safelist accounts within the first week.

Enter Matrix Mailers

With the coding of matrix based emailing scripts, a new breed of safelist is growing in popularity. The major benefit is the ability to email THOUSANDS of people while only receiving a few emails per week.

Matrix mailers (also known as viral safelists) are getting more and more complex with your mail going up, down, and randomized throughout the matrix, allowing the most exposure for your advertising.

However, there is a downside. As their name implies, they are based on a matrix system. YOU MUST PROMOTE your matrix mailer or it will not do you a bit of good.

...and THAT is when it's time for ***Matrix Mailer Power Play***.

I've written this special report to introduce you to, and help you build your downlines in three... no, make that FOUR matrix mailers.

As your solo ads get better you will get more traffic to the site or sites of your choice by advertising to an ever expanding email based market... safely.

Practice Makes Pretty Darn Good

As you read, write and send solos, you will get better. If you track your results, you will get better... faster.

Now let me ask you this...

If you sent out a free email to a few thousand matrix mail users and got a good response.... how much do you think it might be worth if you ran it in a targeted ezine? ...with 250,000 subscribers? ...who really enjoy that ezine??

Just a little something to think about.

The Education In Your Inbox.

READ that junk in your inbox! Read the headlines. Open the ones that get your attention and read the ads. Do you feel compelled to buy? Good, that's probably a pretty good email to copy - not to send, just for practice.

A Classic With a Kick

Here's a little something to get you started. Download a copy of "Million Dollar Emails" by Yanik Silver. You probably already own this ebook. After all, it has a few years on it. But it's still good material. Killer emails drive traffic.

**** BONUS ****

Download a free copy of "How to Make a Six-Figure Income Online - Your Blueprint for Success" by Jimmy D. Brown. I like Jimmy. He's not afraid to share the good stuff.

**** BONUS X2 - Earn More Cash from ClickBank ****

It's actually IMPOSSIBLE to cram an education in affiliate marketing into this tiny report. BUT... there's no need for it anyway. There's already an award winning e-course that will give you plenty'o good info to help you earn more money with ClickBank. Click the link to learn how you can become a [ClickBank Guru](#).

Away We Go!

Step One...

Join the following free programs and make note of your referral links (just copy and paste them into notepad). After you have joined all four programs... proceed to step two.

#1: [Opportunity.com](#) - As your downline grows, you will be able to email more and more RANDOM people throughout the system. PLUS the built in ad tracking will allow you to create custom links for whatever you are promoting. Through these links you will be able to track your ad performance AND automatically promote Opportunity.com to your visitors. An excellent mailer that runs **20 levels deep!**

#2: [Your Lucky List](#) - This is a dual matrix mailer. The first matrix is your standard downline, and you can email all of them. This one takes a while to grow. The other is your "lucky" matrix. It is periodically rebuilt at random. This means YOU could end up near the top with a huge downline in the next shuffle. Sweet.

#3: [The List Machine](#) - Ran by the same people who run Your Lucky List, this dual matrix system builds a standard matrix and another one in reverse. Even if you are the last one to join, you can still send mail.

EXTRA (Late Addition): [ListDotCom](#) - This is a brand new list builder from Mike Filsaime. With 20 levels, cool bonus downloads and a KILLER set of marketing tools... I just had to include it here for you.

Note: After completion of the remaining two steps, it's a good idea to go back and get more acquainted with each program.

BONUS TRAFFIC LINK

[InstantBuzz](#) - Your ads on toolbars, small popup windows and other members outgoing mail. All free. You gotta love that.

Step Two: Brand This Report - Easy-Peasy

Clicking the link below will open a special page containing a form. Just fill in the form as directed and click the button.

The system will spit out a customized PDF file with YOUR links inside. Save it to your desktop.

Step Three: Give It Away

The fastest way to get started, of course, is to offer your branded report to your list. However, that can be difficult... when you don't have a list.

You can also place graphic and text links on your high traffic site, but what if you don't have one of those either?

EZ SOLUTION --> I've put together an EZ Distro kit with simple instructions and everything you need to share your branded report. To download it...
